

# 13th International Conference RC 2024 Virtual Event: July 2024 - Proceedings [Book]

## Unlock the Cutting-Edge Insights in Robotics and Control Research

Mark your calendars for the groundbreaking 13th International Conference on Robotics and Control (RC 2024), taking place virtually in July 2024. This prestigious event brings together leading researchers, industry experts, and practitioners from around the globe to share their latest innovations and advancements in the field of robotics and control.

As a testament to the conference's impact, its proceedings will be published in a comprehensive volume, offering an invaluable resource for researchers, students, and professionals alike. This meticulously curated collection of papers encapsulates the cutting-edge research presented at RC 2024, providing a comprehensive snapshot of the current state of the art.

## Dive into the Latest Robotics and Control Research

The proceedings of the 13th International Conference RC 2024 cover a wide spectrum of topics, including:

- **Robotics:** Mobile robots, aerial robots, underwater robots, humanoid robots, industrial robots
- **Control Theory:** Linear and nonlinear control, optimal control, adaptive control, robust control
- **Applications:** Robotics in manufacturing, healthcare, space exploration, disaster response
- **Emerging Technologies:** Artificial intelligence, machine learning, computer vision, haptics

## Discover the Benefits of the RC 2024 Proceedings

By acquiring the proceedings of RC 2024, you gain access to:

- **Cutting-edge research:** Stay informed about the latest advancements in robotics and control.
- **In-depth analysis:** Delve into the details of groundbreaking research, expanding your knowledge and understanding.
- **Inspiration for innovation:** Spark your own research ideas and drive innovation in the field.
- **Networking opportunities:** Connect with leading researchers and industry experts through the included author contact information.
- **References and citations:** Use the proceedings as a valuable reference for your own research and publications.
