

# 14th International Conference ICGT 2024 Held As Part of STAF 2024 Virtual Event

The 14th International Conference on Graph Transformation (ICGT 2024) will be held as part of the STAF 2024 Virtual Event, which will take place online from July 1st to 5th, 2024.

## Graph Transformation: 14th International Conference, ICGT 2024, Held as Part of STAF 2024, Virtual Event, June 24–25, 2024, Proceedings (Lecture Notes in Computer Science Book 12741)

ICGT is a leading international conference series on graph transformation, a formal framework for modeling and analyzing complex systems. The conference brings together researchers and practitioners from academia and industry to present and discuss the latest advances in graph transformation theory and applications.

STAF is a major international conference series on software technology and applications. The conference brings together researchers and

practitioners from academia and industry to present and discuss the latest advances in software engineering, computer science, and related fields.

The ICGT 2024 conference will feature a variety of tracks, including:

- Graph transformation theory
- Model-driven engineering
- Software engineering
- Computer science

The conference will also feature a number of keynote speakers, including:

- Dr. David Harel, The Weizmann Institute of Science
- Dr. Marsha Chechik, University of Toronto
- Dr. Marlon Dumas, University of Tartu
- Dr. Andy Schürr, Technische Universität München

ICGT 2024 is an excellent opportunity for researchers and practitioners to learn about the latest advances in graph transformation theory and applications. The conference will also provide a forum for networking and collaboration with other researchers and practitioners in the field.

For more information about ICGT 2024, please visit the conference website: <https://icgt2024.org/>.
