A Global Perspective on Education

Our books offer a unique blend of international expertise and local insights, providing you with a comprehensive understanding of education in its diverse global contexts. We believe that education is not confined to

textbooks but is a dynamic and ever-evolving field, shaped by the unique experiences and perspectives of different cultures and societies.

With contributions from leading scholars and practitioners from across the globe, our Springer Texts in Education series covers a wide range of educational topics, including:

- Curriculum and pedagogy
- Educational policy and leadership
- Teacher education and professional development
- Student assessment and evaluation
- Higher education and internationalization
- Inclusive education and special needs
