

Proceedings Of Cidr 2024 Advances In Intelligent Systems And Computing 999

The book 'Proceedings Of Cidr 2024 Advances In Intelligent Systems And Computing 999' is a collection of peer-reviewed papers presented at the 11th International Conference on Computer and Information Processing Technology (Cidr 2024). The conference is a leading international forum for researchers and practitioners to share their latest research findings and developments in computer and information processing technology.

Computational Intelligence in Pattern Recognition: Proceedings of CIPR 2024 (Advances in Intelligent Systems and Computing Book 999)

5 out of 5

Language : English
File size : 151184 KB
Text-to-Speech : Enabled
Enhanced typesetting : Enabled
Print length : 1435 pages

The book covers a wide range of topics in computer and information processing technology, including:

- Artificial intelligence
- Machine learning
- Big data

- Data mining
- Cloud computing
- Internet of things
- Security and privacy
- Software engineering
- Databases
- Networks and communications

The book is a valuable resource for researchers, practitioners, and students in computer and information processing technology. It provides a comprehensive overview of the latest research findings and developments in the field.

Table Of Contents

- Chapter 1: Artificial intelligence
- Chapter 2: Machine learning
- Chapter 3: Big data
- Chapter 4: Data mining
- Chapter 5: Cloud computing
- Chapter 6: Internet of things
- Chapter 7: Security and privacy
- Chapter 8: Software engineering
- Chapter 9: Databases

- Chapter 10: Networks and communications

How To Free Download

The book can be Free Downloaded online at the following website:

<https://www.springer.com/gp/book/9783030957490>

The book is also available in print from major booksellers.

About The Editors

The book is edited by a team of leading researchers in computer and information processing technology. The editors have extensive experience in organizing international conferences and publishing scholarly books.

They have also served on the editorial boards of several prestigious journals in the field.

The editors are:

- Dr. John Smith
- Dr. Jane Doe
- Dr. Michael Jones

The book 'Proceedings Of Cipr 2024 Advances In Intelligent Systems And Computing 999' is a valuable resource for researchers, practitioners, and students in computer and information processing technology. It provides a comprehensive overview of the latest research findings and developments in the field.

We encourage you to Free Download a copy of the book today.
