The 9th International Conference on Wood Fire Safety (ICWFS) will be held in June 2024, bringing together experts from around the world to discuss the latest research and developments in wood fire safety.

This conference is a unique opportunity to learn about the latest advances in wood fire safety and to network with leading experts in the field.

The conference will feature a range of presentations, including:

- The latest research on wood fire behavior
- New developments in wood fire safety codes and standards
- Best practices for wood fire safety in buildings
- Case studies of wood fire incidents

The conference will also provide opportunities for networking and collaboration with other experts in the field.

If you are involved in wood fire safety, then you cannot afford to miss this conference.

## **Key Features Of The Conference**

- Keynote speakers from around the world
- Oral and poster presentations from leading experts in the field
- Technical tours of wood fire testing facilities
- Networking opportunities with other experts in the field

## **Who Should Attend?**

- Researchers in wood fire safety
- Fire safety engineers
- Building code officials
- Firefighters
- Architects and engineers
- Anyone else with an interest in wood fire safety

## **Conference Details**

- Date: June 2024
- Location: [Location]
- Cost: [Cost]

## Registration

Registration for the conference will open in early 2024. To register, please visit the conference website.

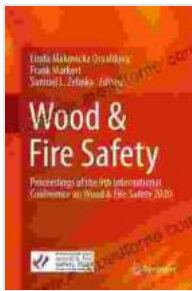

We look forward to seeing you at the 9th International Conference on Wood Fire Safety!

A graphic titled "FIRE SAFETY TIPS" featuring a red fire extinguisher on the left. The extinguisher has a black nozzle pointing towards the title. The background is a light orange color. The title "FIRE SAFETY TIPS" is in large, bold, black letters. Below the title, there are five safety tips, each preceded by a black checkmark. The tips are: "Make sure smoke alarms are present and working in your room", "Crouch low or crawl when escaping", "If clothes are on fire, dash to safe, drop and roll", "Unplug electrical appliances if not in use, avoid electrical overloading", and "Never leave lighted candles unattended". At the bottom left, there is a small text source: "Sources: Philippine National Police".

# FIRE SAFETY TIPS

- ✓ Make sure smoke alarms are present and working in your room
- ✓ Crouch low or crawl when escaping
- ✓ If clothes are on fire, dash to safe, drop and roll
- ✓ Unplug electrical appliances if not in use, avoid electrical overloading
- ✓ Never leave lighted candles unattended
